PROFILE

I am a proficient full-stack developer, experienced in frontend and backend technologies, adept at crafting seamless user experiences for websites and mobile applications. Committed to delivering top-tier results, I am actively seeking diverse opportunities to utilize my technical expertise and enhance your team's success. I am prepared to contribute significantly, whether it's optimizing current projects, exploring new ventures, or solving innovative challenges. I am enthusiastic about showcasing my skills and dedication to drive your projects forward professionally.

PROJECT EXPERIENCE

Threads Project

- [View Project](#)
- Enhanced user experience by implementing intuitive navigation and interactive features, resulting in positive user feedback.
- Demonstrated the ability to learn and adapt to new technologies, ensuring the project's success despite the complexity of the forum platform functionalities.

Ecommerce Project

- [View Project](#)
- Developed a fully functional ecommerce website using Next.js, Next Auth for authentication, Stripe for payment processing, Redux for state management, and Tailwind CSS for responsive and sleek user interface design. The website allows users to browse products, add items to their cart, and securely complete the purchase process.
