- Typescript
- Python
- HTML
- CSS
- React Native
- React.Js
- Next.Js
- Django
- Node.Js
- Express.Js
- MongoDB
- MySQL
- Postgresql

## ABOUT ME

I am a Full Stack Developer, I bring a passion for cutting-edge projects and a proven track record of delivering high-quality results in both frontend and backend technologies. With a keen eye for optimizing existing projects, exploring new ventures, and tackling creative challenges, I am dedicated to enhancing team success. Eager to contribute my technical prowess to your projects, I am ready to collaborate and drive excellence, fostering mutual success.

## PORTFOLIO

### Threads Project

- Enhanced user experience by implementing intuitive navigation and interactive features, resulting in positive user feedback.
- Demonstrated the ability to learn and adapt to new technologies, ensuring the project's success despite the complexity of the forum platform functionalities.

### Ecommerce Project

- Developed a fully functional ecommerce website using Next.js, Next Auth for authentication, Stripe for payment processing, Redux for state management, and Tailwind CSS for responsive and sleek user interface design. The website allows users to browse products, add items to their cart, and securely complete the purchase process.

### Employee Management App

- Developed a comprehensive employee management application using React Native, incorporating essential features such as CRUD operations, attendance reporting, and summary reports. This project aimed to streamline and automate employee-related processes, enhancing overall organizational efficiency.

## CERTIFICATION

- **J.P. Morgan's Software Engineering Job Simulation**  
2023
- **Walmart USA's Advanced Software Engineering Job Simulation**  
2023
